

Saturn Home Learning Grid w/b 30th March

<p>Reading Challenge</p> <p>See how many of these you can complete this week...</p> <p>Read to a pet Read to your favourite toy Read in your pjs Read in the garden or in an unusual place Read a book that makes you giggle Read a book and do silly voices for the characters</p>	<p>I Spy with my Little Eye</p> <p>Look out of your window and write a poem about what you can see.</p> <p>I spy with my little eye... a beautiful bird singing sweetly in a leafy green tree</p> <p>Try to add lots of interesting words and adjectives (describing words). Illustrate your poem with a picture</p>	<p>What happens next...</p> <p>Write a piece of creative writing about what happens next when all the food in the lunch hall at school comes alive!</p> <p>OR</p> <p>you find a magic coin that can grant wishes!</p>	<p>Spelling Bee</p> <p>Write down ten spelling words you have been studying in class or from one of your books. With a family member or friend take turns to test each other on them. Each word spelled correctly gets 10 points. Add in some of your own rules to make the game your own. Maybe you get extra points for being able to spell it backwards or balancing on one leg!</p>	<p>Talk about It</p> <p>Prepare a talk about something you enjoy. Your favourite hobby, a television program, a book, an activity, a favourite holiday...</p> <p>Think about telling your audience at home interesting information about it. Write some notes to help you remember what to say and try to talk for 3 minutes.</p>
<p>Time</p> <p>With an adult look at some travel timetables or a television guide. Can you work out how long a journey would take on the bus/train or how long a film is on TV for?</p>	<p>Time</p> <p>Think about how long it takes you to do certain tasks at home. In your day, record an activity that takes;</p> <p>1 minute 30 minutes 1 hour More than an hour to complete</p>	<p>Number Hunt – Place Value</p> <p>Find numbers around the house or outside and tell an adult how many hundreds, tens and ones are in the number. What is the biggest number you can find? Where did you find it?</p>	<p>Multiplication</p> <p>Pick a times table you are practising and write each sum on its own card. $1 \times 3 = 3$, $2 \times 3 = 6$, $3 \times 3 = 9$ and so on. Arrange the cards in order. Playing with a partner, one closes their eyes while the other removes a card. They must then guess which one is missing. Make it harder by shuffling the cards or removing more than one at a time.</p>	<p>Online</p> <p>Check out Topmarks.com for some fun and challenging maths games. "Hit the Button" is always a favourite, how many can you get right in the time?</p>
<p>What's in your lunchbox?</p> <p>Design a healthy lunchbox that includes fruit, veg, a sandwich and a drink. If you have the ingredients at home, make it and enjoy with your family.</p>	<p>Terrific Toolkit</p> <p>Gather some things that you would use to help you relax or which are important to you. This might include a favourite soft toy, book, photograph or picture. For each item think about a time where it may be useful to use e.g. to cheer you up when upset. Explain your toolkit to an adult.</p>	<p>Dear Diary</p> <p>Keep a diary for the week of times where your body and mind are active. Each day try to have a target of 1-hour exercise and 1 hour which stretches your brain e.g. reading or doing a puzzle. Write in your diary how your body and mind feel after each activity.</p>	<p>And relax...</p> <p>Get an adult to help you find "Cosmic Yoga" online or on Youtube. Follow the breathing and stretching exercises or create your own. Think about how you can slowly stretch your body to make shapes, animals or letters/numbers. Take some photos of your moves!</p>	<p>Sketch it out</p> <p>Take some blank paper and a pencil outside. Draw what you can see in your community or in your street. Get up close to the buildings and draw the lines and shapes they make.</p>

Science	Job Advert	101 things to do	Act it Out	Here's one I Made Earlier
<p>Fill 4 or 5 glasses with different amounts of water. Tap each glass with a pen and listen to the pitch of the sound each makes.</p> <p>Think about; How does the pitch change? Why do you think this happened? Which glass made the highest pitch?</p>	<p>Choose one job from your community; police, shop worker, hairdresser, electrician etc. Speaking to an adult, think about the tasks they need to do and what they need to be good at to do their job. Draw a picture of your worker and list the special skills they need.</p>	<p>Challenge – brainstorm and list as many jobs as you can think of. Use Kelso as a starting point for your list. Think about all the jobs you could do in your town. See if you can come up with 101 jobs or possibly more!</p>	<p>Think of a part from your favourite book and act it out for your family. Find things around the house that you may need for props or outfits. Use your imagination and get creative! See if they can guess which book you are acting out.</p>	<p>Why not transform something from the recycling into a book character? Look for a magical way to reuse a shoebox or a jam jar? Try making a scene from The Gruffalo or A Very Hungry Caterpillar in a jar.</p>
