

Please encourage your child to form their letters correctly and to think about their position on the line.

Use this 100 square to develop your child's knowledge of numbers to 100. Work within a range your child is happy with e.g. start with 1 to 20 and when they are confident move on to 1 to 30.

- find number....
- point to the number after...
- point to the number before....
- start at and count on to.../back from...
- hide a number and ask what number it is
